Stainless steel vacuum pot

型号MODEL: SVP-600NB 1000NB 1500NB 2000NB

容量CAPACITY: 0.6/1.0/1.5/2.0L

市场零售价RETAIL PRICE: ¥ 288/298/308/328

一 食品材质,安全健康 —

Food contact material, Safe and Healthy

▷ 产品采用奥氏体不锈钢304,与水接触塑件部分为PP、硅胶材质。

USE SUS304 material and food PP/ silicone material, Safe and health.

— 内胆电解,美观易清洗 liner surface with electrolytic treatment, beautiful and easy to clean

D 内表面电解处理,形成钝化膜,不易黏附污渍,抗腐蚀能力强。
Internal surface has EP treatment, uniform color, forming passivation film, not easy to stick stains, strong corrosion resistance.

黄金比例口径设计,可投放冰块,保热保冷性能更好。
Golden ratio caliber design, can put ice, Better heat and cold retention.

— 别致壶头,功能性强 —-unique head of pot , Strong function

○ 壶头源于啄木鸟造型设计,源于自然的元素融入生活,更是一种返 璞归真的生活态度;

The pot head is derived from woodpecker modeling design and the integration of natural elements into life, which is an attitude of returning to the original nature.

▷ 整体外观设计已获得专利,受设计专利保护,独具自身的风格。 Overall appearance design has been patented, protected by the design patent, unique own style.

外观专利号Design patent No: 201930267586.1

— 壶盖开关,操作便捷 lid of pot with button ,easy to operation

- 壶盖抓取式开关,一捏一提,轻松开合,方便单手操作; The Pot lid with Grab button, one-button press, easy to one hand operation;
- 盖子设有泄气阀,可以有效防止因负压导致的喷射现象; The pot lid is provided with a vent valve, which can effectively prevent the injection phenomenon caused by negative pressure.
- 壶盖偏心出水结构,小角度即可出水,倒水更省力。
 The pot lid with off-centre outlet structure, which save efforts on small-angle pouring.
- ▷ 盖子为免拆卸出水结构,易清洗。 The pot lid is free from disassembly and easy to clean.

— 封闭式壶嘴,安全卫生 — closed spout of pot, Safety and healthy

□ 壶嘴为封闭式设计,防止灰尘污染,更防蚊蚁爬入,使用更卫生; The spout is sealed to prevent dust pollution, prevent mosquitoes and ants from crawling in, and make it more sanitary to use.

— 一键按压,倒水省力 —

one-button press, easy to pour

□ 出水口防滴落设计,防外溅,断水利落。Drip - proof design of the outlet, anti - splash, make pot efficient water-break.

○ 一键式按压出水,方便单手操作。 one-button press ,easy to pour by one hand

— 人体工学, 舒适手柄 —

Bionic Design, comfortable handle

▷ 把手符合人体工程学设计,优雅的流线型弧度把手, 把握更舒适。 Handle ergonomic design, elegant streamline radian handle, hold more comfortable.

▷ 把手加厚加固R角设计,提升了抗摔能力,更耐用。

The handle is thickened and reinforced with R Angle design, which improves the anti-fall ability and makes it more durable.

— 底部凸点,防滑防磨 — embossing dot design ,Wearable and Non-slip

▷ 底部凸点设计,防滑防磨。Bottom convex design, anti - slip anti - wear
